**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. This action is issued in response to applicant's amendment filed 5/16/06.
2. Claims 1-3 and 5-18 are presented. Claim 4, was canceled. None were added.
3. Claim Status: 1- 3 and 5-18 are pending.

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-3, and 5-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Evans (US Patent No. 6,347,329).

Regarding Claims 1, 8, 9, 16, 17 and 18, Evans discloses a method of generating a medical<sup>1</sup> report, comprising:

displaying a plurality of pre-chosen findings comprising a plurality of medical condition that are associated with a particular portion or sub-portion of a living body, and a separate medical report simultaneously on an electronic display, the medical report comprising a summary section (see Fig. 5, 191, 193, 154, 151, column 6, lines 45-53, Evans);

selecting at least one of said pre-chosen findings based on a diagnosis of the particular portion or sub-portion of the body (see column 6, lines 54-59, Evans);

automatically copying electronically said selected at least one pre chosen findings from the displayed per-chosen findings into the summary section of the medical report upon an indication that it is desired that said selected findings be add to the summary section (see column 5, lines 6-33, Evans<sup>2</sup>);

selecting a subset of said selected at least one of said pre-chosen findings (Fig. 20, step 334, and 335, Evans); and

copying electronically said subset of said selected ones of said pre-chosen findings into a second area of the summary section, wherein said subset of said selected at least one of said pre-chosen findings are displayed in addition to, and separately from said selected at least one of said pre-chosen findings (Fig. 20, step 337, and 338, Col. 11, lines 43-56, Evans).

Regarding Claims 2, and 10, Evans discloses a method wherein the medical report further comprises a plurality of group sections, and automatically copying electronically each pre-chosen finding into a group section of the plurality of group sections which corresponds to the pre-chosen finding upon an indication that it is desired that said selected findings be add to the summary section of the medical report (see column 5, lines 42-57, Evans).

Regarding Claims 3, 6, 11, and 14, Evans discloses a method further comprising the steps of:

receiving for a second time a selection of said respective pre-chosen finding from the displayed pre-chosen findings, the second selection of said pre-chosen fining being previously

selected and copied into the summary section of the medical report (see column 6, lines 55-64, Evans<sup>3</sup>); and

automatically removing electronically the second selected pre-chosen finding from the summary section of the medical report upon an indication that it is desired that said selected finding be removed from the summary section of the medical report (see column 10, lines 56-63, Evans<sup>4</sup>).

Regarding Claim 12, Evans discloses a method further comprising selecting the pre-chosen findings from a list of available findings (see Fig. 20, 334, Evans).

Regarding Claims 5, and 13, Evans discloses a method further comprising:  
displaying on the electronic display an indicator next to the selected pre-chosen finding, separate from the medical report, (see Fig. 20, indicator 001, Evans).

Regarding Claims 7, and 15, Evans discloses a method wherein the copying further comprises converting the selected pre-chosen finding into a more descriptive form before copying into the summary section (see Fig. 20, 335, Evans).

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

### *Response to Amendment*

Applicant's arguments filed 5/16/06 have been fully considered but they are not persuasive.

Applicant argues "Evans's system fails to teach that the user is able to select a subset of the codes and display the subset in addition to and independent of the displayed codes."

Examiner disagrees. Applicant argues a limitation was not claimed of different than the claim language. However, Evans at Fig. 20, steps 334-338, wherein the 334, and 335, Col. 11, lines 42-67, listing a pre-chosen findings and a code for each of the findings, and these subset codes are displayed in addition to and independent of the displayed code which to the claimed limitation.

---

<sup>3</sup> By allowing the user to select more than one form, reads on second form as the claimed limitation.

<sup>4</sup> The method of ending and restarting the process reads on removing data.
